Note 1. Organization, Consolidation and Presentation of Financial Statements

Fathom Holdings Inc. ("Fathom", "Fathom Holdings," and collectively with its consolidated subsidiaries and affiliates, the "Company") is a national, technology-driven, real estate services platform integrating residential brokerage, mortgage, title, insurance services and supporting software called intelliAgent. The Company's brands include Fathom Realty, Dagley Insurance, Encompass Lending, intelliAgent, LiveBy, Real Results, Verus Title and Cornerstone.

The unaudited interim consolidated financial statements include the accounts of Fathom Holdings' wholly owned subsidiaries. All transactions and accounts between and among its subsidiaries have been eliminated. All adjustments and disclosures necessary for a fair presentation of these unaudited interim consolidated financial statements have been included.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") as determined by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the unaudited interim consolidated financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results of operations for the periods presented. These financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2021 included in the Company's Annual Report on Form 10-K filed with the Security and Exchange Commission ("SEC") on March 9, 2022 (the "Form 10-K"). The results of operations for any interim periods are not necessarily indicative of the results that may be expected for the entire fiscal year or any other interim period. In January and February 2022, the Company acquired Cornerstone Financial ("Cornerstone") and iPro realty Network ("iPro"), respectively, in separate transactions accounted for as business combinations. Cornerstone is a real estate mortgage business that will help expand the Company's reach in the Washington DC and surrounding markets. The acquisition of iPro, a real estate brokerage business, will help expand the Company's reach in the Utah real estate market.

As previously disclosed in the Form 10-K, certain prior period amounts for the three months ended March 31, 2021 have been revised to conform to the current presentation. These changes have no impact on our previously reported consolidated balance sheets or statements of operations.

The Company has reviewed events occurring through the date the financial statements were available to be issued and no subsequent events occurred requiring accrual or disclosure.

Note 2. Risks and Uncertainties

Certain Significant Risks and Business Uncertainties — The Company is subject to the risks and challenges associated with companies at a similar stage of development. These include dependence on key individuals, successful development and marketing of its offerings, and competition with larger companies with greater financial, technical, and marketing resources. Furthermore, during the period required to achieve substantially higher revenue in order to become consistently profitable, the Company may require additional funds that might not be readily available or might not be on terms that are acceptable to the Company. See "COVID-19 Risks, Impacts and Uncertainties" below, and "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2021 (the "Form 10-K") for further detail regarding the risks the Company faces.

Liquidity — The Company has a history of negative cash flows from operations and operating losses. The Company generated net losses of approximately \$6.0 million and \$3.4 million for the three months ended March 31, 2022 and 2021, respectively. Additionally, the Company anticipates further expenditures associated with the process of expanding its business organically and via acquisitions. The Company had cash and cash equivalents of \$30.5 million and \$37.8 million as of March 31, 2022 and December 31, 2021, respectively. Management believes that existing cash from its 2021 common stock offering along with its planned budget, which includes continued increases in the number of its agents and transactions at rates consistent with historical growth, plus growth from increasing attach rates across the Company's businesses from internal referrals and the expected ability to achieve sales volumes necessary to cover forecasted expenses, provide sufficient funding to continue as a going concern for a period of at least one year from the date of the issuance of the unaudited interim consolidated financial statements.

COVID-19 Risks, Impacts and Uncertainties — On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China ("COVID-19") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified COVID-19 as a pandemic, based on the rapid increase in exposure globally.

The Company is subject to the risks arising from COVID-19 including its social and economic impacts on the residential real estate industry in the United States. Our management believes that these social and economic impacts, which to date have included but not been limited to the following, could have a significant impact on the Company's future financial condition, liquidity, and results of operations: (i) restrictions on in-person activities associated with residential real estate transactions arising from shelter-in-place, or similar isolation orders; (ii) decline in consumer demand for in-person interactions and physical home tours; and (iii) deteriorating economic conditions, such as increased unemployment rates, recessionary conditions, lower yields on individual investment portfolios, and more stringent mortgage financing conditions.

Given the continuing evolution of COVID-19 and the global responses to curb its spread, the Company is not able to estimate the effects of COVID-19, including any currently known and future variant, on its results of operations, financial condition, or liquidity for the year ending December 31, 2022 and beyond. While the development and availability of multiple COVID-19 vaccines lessened the impact of COVID-19 in 2021 and the quarter ended March 31, 2022, if COVID-19 continues, it may have a material adverse effect on the Company's financial condition, liquidity, and future results of operations.

Russia and Ukraine Conflict — In February 2022, Russia invaded Ukraine resulting in the United States, Canada, the European Union and other countries imposing economic sanctions on Russia. While this conflict has not impacted the Company directly, the full impact on the United States and other economies is unknown and cannot be predicted. This conflict could cause an adverse impact on U.S. economy and financial markets which could adversely affect the housing industry and home purchases and sales, which in turn could have a material impact on the Company's financial condition or results of operations.

Use of Estimates — The preparation of the unaudited interim consolidated financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions related to doubtful accounts, legal contingencies, income taxes, deferred tax asset valuation allowances, stock-based compensation, goodwill, estimated lives of intangible assets, and intangible asset impairment. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accural of costs and expenses that are not readily apparent from other sources. The actual results estimates and the actual results, future results of operations will be affected.

Note 3. Recent Accounting Pronouncements

Recently Issued Accounting Pronouncements Not Yet Adopted — In June 2016, the FASB issued Accounting Standards Update ("ASU") 2016-13, Financial Instruments — Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which changes the impairment model for most financial assets and certain other instruments. For receivables, loans and other instruments, entities will be required to use a new forward-looking "expected loss" model that generally will result in the earlier recognition of allowance for losses. In addition, an entity will have to disclose significantly more information about allowances and credit quality indicators. The new standard is effective for the Company for fiscal years beginning after December 15, 2022. The Company is currently evaluating the impact of the pending adoption of the new standard on its consolidated financial statements and intends to adopt the standard on January 1, 2023.

Note 4. Acquisitions

The Company completed two acquisitions in the three months ended March 31, 2022, both accounted for as business combinations (the "2022 Acquisitions"). On January 24, 2022, the Company acquired Cornerstone, a real estate mortgage business in the Washington DC and surrounding markets, for approximately \$4.7 million. The purchase price was comprised of \$1.1 million in cash consideration and 267,470 shares of common stock with an acquisition date fair value of \$3.6 million. Approximately \$0.6 million of the cash consideration is due within one year of the acquisition date. On February 8, 2022, the Company acquired iPro, a real estate brokerage business in the Utah real estate market, for total consideration of approximately \$4.2 million. The purchase price included cash consideration of approximately \$1.8 million and 167,824 shares of common stock with an acquisition date fair value of \$2.3 million. Approximately \$0.1 million of the cash consideration is due within one year of the acquisition date. Assets acquired and liabilities assumed in the individual acquisitions were recorded on the Company's condensed consolidated balance sheet at their estimated fair values as of the respective dates of acquisition, including mortgage loans held for sale of approximately \$3.5 million, lease right of use assets and lease liabilities of approximately \$0.6 million, accrued liabilities of approximately \$0.4 million and warehouse lines of credit of approximately \$3.4 million. The Company recorded finite-lived intangible assets of approximately \$3.6 million and goodwill of approximately \$4.9 million. Due to the timing of these acquisitions, the valuation of net assets acquired has not been finalized and is expected to be completed no later than one year from the acquisition date in accordance with U.S. generally accepted accounting principles ("GAAP"). Acquisition related costs incurred during the three months ended March 31, 2022 were \$51,000 and are included in general and administrative expense. Pro forma information has not been included as it is impracticable to obtain the information due to the lack of availability of historical U.S. GAAP financial data. The results of the operations of these businesses do not have a material effect on the Company's consolidated results of operations.

During the three months ended March 31, 2021, the Company completed two acquisitions. On March 1, 2021, the Company acquired substantially all of the assets of Naberly for cash consideration of approximately \$2.7 million in a transaction accounted for as an asset acquisition. The total acquisition cost, including transaction costs of approximately \$0.1 million, was approximately \$2.8 million and was recorded as software intangible assets. On March 1, 2021, the Company completed the acquisition of Red Barn in a transaction deemed immaterial to the Company. The Red Barn acquisition was accounted for as a business combination.

Note 5. Intangible Assets, Net

Intangible assets, net consisted of the following (amounts in thousands):

	 March 31, 2022						
	ss Carrying Amount		ccumulated ortization	Net	Carrying Value		
Trade names	\$ 7,393	\$	(613)	\$	6,780		
Software development	9,831		(1,508)		8,323		
Customer relationships	8,180		(1,200)		6,980		
Agent relationships	5,576		(328)		5,248		
Know-how	430		(83)		347		
	\$ 31,410	\$	(3,732)	\$	27,678		

		December 31, 2021							
	G	Gross Carrying Amount			Net Carrying Value				
Trade names	\$	6,326	\$	(454)	\$	5,872			
Software development		9,017		(1,095)		7,922			
Customer relationships		8,180		(897)		7,283			
Agent relationships		3,030		(233)		2,797			
Know-how		430		(61)		369			
	\$	26,983	\$	(2,740)	\$	24,243			

Estimated future amortization intangible assets as of March 31, 2022 was as follows (amounts in thousands):

Years Ending December 31,	
2022 (remaining)	\$ 6,763
2023	4,083
2024	3,969
2025	3,734
2026	3,188
Thereafter	5,941
Total	\$ 27,678

The aggregate amortization expense for intangible assets was \$1.0 million and \$0.1 million, of which \$0.5 million and \$0.1 million was included in technology and development expense for the three months ended March 31, 2022 and 2021, respectively.

Note 6. Goodwill

The changes in the carrying amount of goodwill by reportable segment as of March 31, 2022 were as follows (amounts in thousands):

	Re	al Estate							
	Bi	okerage	N	Iortgage	Te	chnology	0	ther (a)	Total
Balance at December 31, 2021	\$	1,099	\$	7,399	\$	4,168	\$	7,875	\$ 20,541
Goodwill acquired during the period		1,432		3,439					4,871
Balance at March 31, 2022	\$	2,531	\$	10,838	\$	4,168	\$	7,875	\$ 25,412

(a) Other comprises goodwill not assigned to a reportable segment.

Note 7. Accrued and Other Current Liabilities

Accrued and other current liabilities consisted of the following (amounts in thousands):

	March 31, 2022	December 31, 2021
Deferred annual fee	\$ 88	3 \$ 546
Due to sellers	2,10	0 1,400
Accrued compensation	88	4 1,033
Other accrued liabilities	1,70	3 1,422
Total accrued and other current liabilities	\$ 5,57	5 \$ 4,401

Note 8. Warehouse Lines of Credit

Encompass Lending Group ("Encompass"), an indirect wholly owned subsidiary of the Company, utilizes line of credit facilities as a means of temporarily financing mortgage loans pending their sale. The underlying warehouse lines of credit agreements, as described below, contain financial and other debt covenants. As of March 31, 2022, Encompass was in compliance with these debt covenants.

Encompass maintains a master loan warehouse agreement with a bank whereby Encompass borrows funds to finance the origination or purchase of eligible loans. Interest on funds borrowed is equal to the greater of the mortgage interest rate of the underlying loan or 3.625%. The agreement expires in July 2022. The maximum funding of these loans at March 31, 2022 and December 31, 2021 was \$15.0 million. At March 31, 2022 and December 31, 2021, the outstanding balance on this warehouse line was approximately \$2.4 million and \$4.3 million, respectively.

Encompass maintains a mortgage participation purchase agreement with a bank whereby Encompass borrows funds to finance the origination or purchase of eligible loans. Interest on funds borrowed is equal to the greater of the mortgage interest rate of the underlying loan or 3.5%. The agreement expires in April 2023. The maximum funding of these loans at March 31, 2022 and December 31, 2021 was \$25.0 million. At March 31, 2022 and December 31, 2021, the outstanding balance on this warehouse line was approximately \$3.5 million and \$3.1 million, respectively.

Encompass maintains a warehousing credit and security agreement with a bank whereby Encompass borrows funds to finance the origination of eligible mortgage loans. Interest on funds borrowed is equal to the daily LIBOR rate plus 2.00% or 3.5% per annum. The agreement expires in April 2023. The Daily Adjusting LIBOR rate plus 2.00% as of March 31, 2022 and December 31, 2021 was2.33% and 2.09, respectively%. The maximum funding limit of these loans at March 31, 2022 and December 31, 2021 was \$15.0 million. At March 31, 2022 and December 31, 2021, the outstanding balance on this warehouse line was approximately \$2.3 million and \$2.2 million, respectively.

Note 9. Debt

Long-term debt consisted of the following (amounts in thousands):

	March 31, 2022		December 31, 202	
3.75% Small Business Administration installment loan due May 2050	\$	172	\$	171
Notes payable:				
Non-interest-bearing promissory note due July 1, 2022		210		210
2.5% director and officer insurance policy promissory note due July 31, 2022		96		385
6.0 % executive and officer insurance policy promissory note due October 9, 2022		132		211
Total debt		610		977
Less current portion of the Small Business Administration Loan		(21)		(25)
Less current portion of notes payable		(438)		(806)
Long-term debt, net of current portion	\$	151	\$	146

Note 10. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement* ("ASC 820"), defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The methodology establishes consistency and comparability by providing a fair value hierarchy that prioritizes the inputs to valuation techniques into three broad levels, which are described below:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities (these are observable market inputs).
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability (includes quoted market prices for similar assets or identical or similar assets in markets in which there are few transactions, prices that are not current or prices that vary substantially).
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions in pricing the asset or liability (used when little or no market data is available).

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

In general, fair value is based upon quoted market prices, where evaluated. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure the financial instruments are recorded at fair value.

While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Mortgage loans held for sale – The fair value of mortgage loans held for sale is determined, when possible, using quoted secondary-market prices or purchaser commitments. If no such quoted price exists, the fair value of a loan is determined using quoted prices for a similar asset or assets, adjusted for the specific attributes of that loan, which would be used by other market participants. The loans are considered Level 2 on the fair value hierarchy.

Derivative financial instruments – Derivative financial instruments are reported at fair value. Fair value is determined using a pricing model with inputs that are unobservable in the market or cannot be derived principally from or corroborated by observable market data. These instruments are Level 3 on the fair value hierarchy.

The fair value determination of each derivative financial instrument categorized as Level 3 required one or more of the following unobservable inputs:

- Agreed prices from Interest Rate Lock Commitments ("IRLC");
- Trading prices for derivative instruments; and
- Closing prices at March 31, 2022 and December 31, 2021 for derivative instruments.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of March 31, 2022 (amounts in thousands):

	Leve	11	I	Level 2	I	Level 3	Total
Mortgage loans held for sale	\$		\$	8,364	\$	_	\$ 8,364
Derivative assets						395	395
	\$	_	\$	8,364	\$	395	\$ 8,759

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of December 31, 2021 (amounts in thousands):

	Le	evel 1	Level 2	Level 3	Total
Mortgage loans held for sale	\$		\$ 9,862	\$ 	\$ 9,862
Derivative assets		_	 —	 53	 53
	\$	—	\$ 9,862	\$ 53	\$ 9,915

The Company enters into IRLCs to originate residential mortgage loans held for sale, at specified interest rates and within a specific period of time (generally between 30 and 90 days), with customers who have applied for a loan and meet certain credit and underwriting criteria. These IRLCs meet the definition of a derivative and are reflected on the consolidated balance sheets at fair value with changes in fair value recognized in other service revenue on the consolidated statements of operations. Unrealized gains and losses on the IRLCs, reflected as derivative assets and derivative liabilities, respectively, are measured based on the fair value of the underlying mortgage loan, quoted agency mortgage-backed security ("MBS") prices, estimates of the fair value of the forward loan sales commitment and mandatory delivery commitments being used to hedge the IRLCs and mortgage loans held for sale not committed to purchasers are based on quoted agency MBS prices.

Note 11. Leases

Operating Leases

The Company has operating leases primarily consisting of office space with remaining lease terms of less thanone year to six years, subject to certain renewal options as applicable.

Leases with an initial term of twelve months or less are not recorded on the balance sheet, and the Company does not separate lease and non-lease components of contracts. There are no material residual guarantees associated with any of the Company's leases, and there are no significant restrictions or covenants included in the Company's lease agreements. Certain leases include variable payments related to common area maintenance and property taxes, which are billed by the landlord, as is customary with these types of charges for office space.

Our lease agreements generally do not provide an implicit borrowing rate. Therefore, the Company used a benchmark approach to derive an appropriate imputed discount rate. The Company benchmarked itself against other companies of similar credit ratings and comparable quality and derived an imputed rate, which was used in a portfolio approach to discount its real estate lease liabilities. The Company used estimated incremental borrowing rates for all active leases.

The table below presents certain information related to lease costs for the Company's operating leases (amounts in thousands):

	Т	Three months ended March 31,				
		2022	2	021		
Operating lease expense	\$	332	\$	48		
Short-term lease expense		112		28		
Total lease cost	\$	444	\$	76		

The following table presents the weighted average remaining lease term and the weighted average discount rate related to operating leases.

	March 31, 2022	December 31, 2021
Weighted average remaining lease term (in years) - operating leases	4.48	4.98
Weighted average discount rate - operating leases	6.15 %	5.91 %

The following table presents the maturities of lease liabilities (amounts in thousands):

Years Ended December 31,	Operating Leases
2022 (remaining)	1,043
2023	1,311
2024	1,083
2025	847
2026	507
2027 and thereafter	623
Total minimum lease payments	5,414
Less effects of discounting	(627)
Present value of future minimum lease payments	\$ 4,787

Note 12. Shareholders' Equity

On March 10, 2022, the Company's Board of Directors authorized an expenditure of up to \$10 million for the repurchase of shares of the Company's common stock. The share repurchase program does not have a fixed expiration. Under the program, repurchases can be made from time-to-time using a variety of methods, including open market transactions, privately negotiated transactions or by other means, including through the use of trading plans intended to qualify under Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The actual timing and amount of future repurchases are subject to business and market conditions, corporate and regulatory requirements, stock price, acquisition opportunities and other factors. The repurchase program does not obligate the Company to acquire any particular number of shares and may be suspended or discontinued at any time at the Company's discretion. During the three months ended March 31, 2022, the Company reacquired 83,811 shares for approximately \$1.0 million. As of March 31, 2022, the Company had approximately \$9.0 million remaining under the share repurchase authorization.

During the three months ended March 31, 2022, the Company issued shares of common stock as part of the purchase consideration in connection with the acquisitions of iPro and Cornerstone. Refer to Note 4 for additional information about these acquisitions and the shares of common stock issued.

The Company has an outstanding equity-classified warrant issued to an underwriter in August 2020 (the "Underwriter Warrant") to purchase240,100 shares of common stock. The Underwriter Warrant is exercisable at a per share exercise price of \$11.00 and is exercisable at any time from and after January 31, 2021 through August 4, 2025. As of March 31, 2022, no portion of the Underwriter Warrant has been exercised or expired.

Note 13. Stock-based Compensation

Stock-based compensation expense related to awards issued under the Company's stock compensation plans for the three months ended March 31, 2022 and 2021 was as follows (amounts in thousands):

	Т	Three months ended March 31,				
		2022	2021			
Commission and other agent-related cost	\$	832	\$	41		
Operations and support		71		_		
Technology and development		2				
General and administrative		1,457		_		
Marketing		45				
Total stock-based compensation	\$	2,407	\$	41		

The Company capitalized \$51,000 of stock-based compensation expense associated with the cost of developing software for internal use during the three months ended March 31, 2022.

At March 31, 2022, the total unrecognized compensation cost related to non-vested restricted stock awards was **9**.8 million, which is expected to be recognized over a period of approximately 1.67 years. There was no unrecognized compensation cost related to stock options, as all outstanding stock options were vested at March 31, 2022. There were no grants of stock options during the three months ended March 31, 2022.

Note 14. Related Party Transactions

Marketing expense for both the three months ended March 31, 2022 and 2021 includes approximately \$0.1 million from related parties in exchange for the Company receiving marketing services.

Note 15. Net Loss per Share Attributable to Common Stock

Basic loss per share of common stock is computed by dividing net loss attributable to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted loss per share is calculated by adjusting the weighted-average number of shares outstanding for the dilutive effect of common stock equivalents outstanding for the period, determined using the treasury-stock method. Diluted loss per share excludes, when applicable, the potential impact of stock options, unvested shares of restricted stock awards, and common stock warrants because their effect would be anti-dilutive due to net loss.

The calculation of basic and diluted net loss per share attributable to common stock was as follows (amounts in thousands except share data):

		Three months ended March 31,				
	2022			2021		
Numerator:						
Net loss attributable to common stock—basic and diluted	\$	(5,997)	\$	(3,400)		
Denominator:						
Weighted- average basic and diluted shares outstanding		16,323,157		13,450,111		
Net loss per share attributable to common stock-basic and diluted	\$	(0.37)	\$	(0.25)		

The following outstanding shares of common stock equivalents were excluded from the computation of the diluted net loss per share attributable to common stock for the periods presented because their effect would have been anti-dilutive.

	Three months e	nded March 31,
	2022	2021
Stock options	43,996	60,970
Non-vested restricted stock awards	693,717	508,784
Common stock warrants	240,100	240,100

Note 16. Income Taxes

As of December 31, 2021, the Company had federal net operating loss carryforwards of approximately \$24.3 million and state net operating loss carryforwards of approximately \$12.8 million, respectively. Losses will begin to expire, if not utilized, in 2032. Utilization of the net operating loss carryforwards may be subject to an annual limitation according to Section 382 of the Internal Revenue Code of 1986 as amended, and similar provisions.

The Company applies the standards on uncertainty in income taxes contained in ASC Topic 740, Accounting for Income Taxes. The adoption of this interpretation did not have any impact on the Company's consolidated financial statements, as the Company did not have any significant unrecognized tax benefits during the three months ended March 31, 2022 or the year ended December 31, 2021. In general the statute of limitations remains open subsequent to and including the year ended December 31, 2019 however, due to (and to the extent of) certain acquired losses the statute of limitations remains open for periods subsequent to and including the year ended December 31, 2015.

In determining the quarterly provision for income taxes, the Company used the annual effective tax rate applied to year-to-date income. The Company's annual estimated effective tax rate differs from the statutory rate primarily as a result of state taxes, permanent differences, and changes in the Company's valuation allowance. The income tax effects of unusual or infrequent items, including a change in the valuation allowance as a result of a change in judgment regarding the realizability of deferred tax assets are excluded from the estimated annual effective tax rate and are required to be discretely recognized in the interim period in which they occur.

The Company has historically maintained a valuation allowance against deferred tax assets and reported only minimal current state tax expense. The Company recorded an income tax expense of approximately \$25,000 and income tax expense of \$5,000 for the three months ended March 31, 2022 and 2021 respectively. The Company expects to maintain a valuation allowance on current year remaining net deferred tax assets by year-end due to historical operating losses.

Note 17. Segment Reporting

The Company's three reportable segments are Real Estate Brokerage, Mortgage and Technology. Through its Real Estate Brokerage segment, the Company provides real estate brokerage services. Through its Mortgage segment, the Company provides residential loan origination and underwriting services. Through its Technology segment, the Company provides SaaS solutions and data mining for third party customers to develop its intelliAgent platform for current use by the Company's real estate agents. In reporting periods prior to the Company's acquisitions of LiveBy and E:49, which were completed in the three months ended June 30, 2021, the Company aggregated its identified operating segments into one reportable segment. Certain prior period amounts for the three months ended March 31, 2021 have been revised to conform to the current presentation. These changes have no impact on our previously reported consolidated balance sheets or statements of operations.

Revenue and Adjusted EBITDA are the primary measures used by the Chief Operating Decision Maker ("CODM") to evaluate financial performance of the reportable segments and to allocate resources. Adjusted EBITDA represents the revenues of the operating segment less operating expenses directly attributable to the respective operating segment. Adjusted EBITDA is defined by the Company as net income (loss), excluding other expense, costs related to acquisitions, income tax benefit, depreciation and amortization, and stock-based compensation expense. In particular, the Company believes the exclusion of non-cash stock-based compensation expense related to restricted stock awards and stock options and transaction-related costs provides a useful supplemental measure in evaluating the performance of the Company's operations and provides better transparency into its results of operations. The Company's presentation of Adjusted EBITDA might not be comparable to similar measures used by other companies.

The Company does not allocate assets to its reportable segments as they are not included in the review performed by the CODM for purposes of assessing segment performance and allocating resources. The balance sheet is managed on a consolidated basis and is not used in the context of segment reporting. The Company has included the results of the acquisitions during the reported period from the acquisition date of the respective acquisition.

Key operating data for the reportable segments for the three months ended March 31, 2022 and 2021 are set forth in the tables below (amounts in thousands).

		onths ended arch 31,		
Revenue	2022	2021		
Real Estate Brokerage	\$ 84,044	\$ 49,156		
Mortgage	2,864	_		
Technology	645	_		
Corporate and other services (a)	2,529	490		
Total revenue	\$ 90,082	\$ 49,646		

	Three months ended March 31,						
Adjusted EBITDA	 2022		2021				
Real Estate Brokerage	\$ 945	\$	(506)				
Mortgage	(490)		_				
Technology	 (395)		(315)				
Total Segment Adjusted EBITDA	60		(821)				
Corporate and other services (a)	(2,176)		(1,222)				
Total Company Adjusted EBITDA	 (2,116)		(2,043)				
Depreciation and amortization	(1,061)		(102)				
Other (expense) income, net	(337)		54				
Income tax (expense)	(25)		(5)				
Stock-based compensation	(2,407)		(870)				
Transaction-related costs	 (51)		(434)				
Net loss	\$ (5,997)	\$	(3,400)				

(a) Transactions between segments are eliminated in consolidation. Such amounts are eliminated through the Corporate and other services line.

Note 18. Commitments and Contingencies

From time to time the Company is involved in litigation, claims, and other proceedings arising in the ordinary course of business. Such litigation and other proceedings may include, but are not limited to, actions relating to employment law and misclassification of employees versus independent contractors, intellectual property, commercial or contractual claims, brokerage or real estate disputes, or other consumer protection statutes, ordinary-course brokerage disputes like the failure to disclose property defects, commission disputes, and various liabilities based upon conduct of individuals or entities outside of the Company's control, including agents and third party contractor agents. Litigation and other disputes are inherently unpredictable and subject to substantial uncertainties and unfavorable resolutions could occur. As of March 31, 2022, there was no material litigation against the Company.

In conducting its operations, the Company routinely holds customers' assets in escrow, pending completion of real estate transactions, and is responsible for the proper disposition of these balances for its customers. Certain of these amounts are maintained in segregated bank accounts and have not been included in the accompanying consolidated balance sheets, consistent with GAAP and industry practice. The balances amounted to \$5.8 million and \$2.3 million at March 31, 2022 and December 31, 2021, respectively.

Encompass Net Worth Requirements

In order to maintain approval from the U.S. Department of Housing and Urban Development to operate as a Title II non-supervised mortgagee, our indirect subsidiary Encompass is required to maintain adjusted net worth of \$1,000,000 and must maintain liquid assets (cash, cash equivalents, or readily convertible instruments) of 20% of the required net worth. As of March 31, 2022, Encompass had adjusted net worth of approximately \$3.3 million and liquid assets of \$4.2 million.

Commitments to Extend Credit

Encompass enters into IRLCs with borrowers who have applied for residential mortgage loans and have met certain credit and underwriting criteria. These commitments expose Encompass to market risk if interest rates change and the underlying loan is not economically hedged or committed to a purchaser. Encompass is also exposed to credit loss if the loan is originated and not sold to a purchaser and the mortgagor does not perform. The collateral upon extension of credit typically includes a first deed of trust in the mortgagor's residential property. Commitments to originate loans do not necessarily reflect future cash requirements as commitments are expected to expire without being drawn upon.

Regulatory Commitments

Encompass is subject to periodic audits and examinations, both formal and informal in nature, from various federal and state agencies, including those made as part of the regulatory oversight of mortgage origination, servicing and financing activities. Such audits and examinations could result in additional actions, penalties or fines by state or federal government bodies, regulators or the courts.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Company's consolidated operating results are affected by a wide variety of factors that could materially and adversely affect revenues and profitability, including the risk factors described in our most recent Annual Report on Form 10-K, as amended (the "Form 10-K"), and the risk factors described in this quarterly report. As a result of these and other factors, the Company may experience material fluctuations in future operating results on a quarterly or annual basis, which could materially and adversely affect its business, consolidated financial condition, liquidity, operating results, and common stock prices. Furthermore, this quarterly report, the Form 10-K and other documents filed by the Company with the Securities and Exchange Commission ("SEC") contain certain forward-looking statements under the Private Securities Litigation Reform Act of 1995 ("Forward-Looking Statements") with respect to the business of the Company. Forward-Looking Statements are necessarily subject to risks and uncertainties, many of which are outside our control, that could cause actual results to differ materially from these statements. Forward-Looking Statements can be identified by such words as "anticipate," "believe," "goals," "estimate," "expect," "intend," "may," "might," "plan," "predict," "project," "target," "potential," "will," "would," "could," "should," "continue," "forecast" and similar references to future periods. All statements other than statements of historical facts included in this report regarding our strategies, prospects, financial condition, operations, costs, plans and objectives and regarding the anticipated impact of COVID-19 are Forward-Looking Statements. These Forward-Looking Statements are subject to certain risks and uncertainties, including those detailed in the Form 10-K and in the risk factors described in this quarterly report, which could cause actual results to differ materially from these Forward-Looking Statements. Except as required by law, the Company undertakes no obligation to publicly release the results of any revisions to these Forward-Looking Statements which may be necessary to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Any Forward-Looking Statement made by the Company is based only on information currently available to us and speaks only as of the date on which it is made.

The terms the "Company," "Fathom," "we," "us," and "our" as used in this report refer to Fathom Holdings Inc. and its consolidated subsidiaries unless otherwise specified.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The information in this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Company's consolidated financial statements and the related notes set forth in Item 1 of Part I of this Quarterly Report on Form 10-Q, our MD&A set forth in the Form 10-K, and our audited consolidated financial statements and related notes set forth in the Form 10-K. See Part II, Item 1A, "Risk Factors," below, and "Special Note Regarding Forward-Looking Information," above, and the information referenced therein, for a description of risks that we face and important factors that we believe could cause actual results to differ materially from those in our forward-looking statements. All statements herein regarding the likely impact of COVID-19 and other potential risks constitute forward-looking statements. When we cross-reference to a "Notes to Unaudited Condensed Consolidated Financial Statements," unless the context indicates otherwise. All amounts noted within the tables are in thousands except per share amounts or where otherwise noted and percentages are approximate due to rounding.

Given the volatility of the global environment as a result of the ongoing COVID-19 pandemic, the effect of COVID-19 will not be fully reflected in our results of operations and financial performance until future periods.

Overview

Fathom Realty LLC was originally founded in January of 2010 and later incorporated as Fathom Holdings Inc. in the state of North Carolina on May 5, 2017. We are a national, technology-driven, real estate services platform integrating residential brokerage, mortgage, title, insurance, and Software as a Service ("SaaS") offerings to brokerages and agents by leveraging our proprietary cloud-based software, intelliAgent. The Company's brands include Fathom Realty, Dagley Insurance, Encompass Lending, intelliAgent, LiveBy, Real Results, and Verus Title.

Fathom Realty Holdings, LLC, a Texas limited liability company ("Fathom Realty"), is a wholly owned subsidiary of Fathom Holdings Inc. Fathom Realty owns 100% of 35 subsidiaries, each an LLC representing the state in which the entity operates (e.g., Fathom Realty NJ, LLC).

Corporate Developments During 2022 and 2021

In January 2022, the Company acquired Cornerstone, a real estate mortgage business that is expected to help expand the Company's reach in the Washington DC and surrounding markets.

In February 2022, the Company acquired iPro, a real estate brokerage business that is expected to help expand the Company's reach in the Utah real estate market.

In March 2021, the Company completed its acquisitions of Red Barn Real Estate, LLC ("Red Barn") and Naberly Inc. ("Naberly"). The acquisition of Red Barn, a real estate brokerage business, is expected to help us to expand our reach in the Atlanta region real estate market. The acquisition of Naberly is facilitating our further development of our proprietary intelliAgent platform to enhance offerings and improve operational efficiency.

In April 2021, the Company completed its acquisition of E4:9 Holdings, Inc. ("E4:9"). The acquisition of E4:9 is part of our vision to build a vertically integrated, end-to-end real estate operation by offering mortgage and insurance services to our agents to further serve our customers.

Also in April 2021, the Company completed its acquisition of LiveBy, Inc. ("LiveBy"). We believe the acquisition of LiveBy and its hyperlocal data and technology platform builds credibility for our real estate agents in their respective geographic areas by showcasing their local expertise and helping customers discover the best locations in which to live.

In June 2021, the Company completed its acquisition of Epic Realty ("Epic"). The acquisition of Epic, a real estate brokerage business, should help us to expand our reach in the Idaho real estate market. We further augmented our realty presence in Idaho with the addition of Woodhouse Group Realty ("Woodhouse") in November 2021.

In November 2021, the Company completed an offering of common stock, which resulted in the issuance and sale by the Company of 1,750,000 shares of common stock, at a public offering price of \$25.00 per share, generating gross proceeds of approximately \$35 million, of which the Company received approximately \$32.5 million, after deducting underwriting discounts and other offering costs (the "2021 Equity Offering").

COVID-19 and Other Risks

Our business is dependent on the economic conditions within the markets in which we operate. Changes in these conditions can have a positive or negative impact on our business. The economic conditions influencing the housing markets primarily include economic growth, interest rates, unemployment, consumer confidence, mortgage availability, and supply and demand.

In periods of economic growth, demand typically increases resulting in increasing home sales transactions and home sales prices. Similarly, a decline in economic growth, increasing interest rates and declining consumer confidence generally decreases demand. Additionally, regulations imposed by local, state, and federal government agencies can also negatively impact the housing markets in which we operate. Finally, national and global events, including geopolitical instability, that impact economic conditions and financial markets, including interest rates, can adversely impact the housing market.

In December 2019, a novel strain of coronavirus, COVID-19, was identified in Wuhan, China. This new coronavirus has caused a global health emergency and was declared a pandemic by the World Health Organization in March 2020 ("COVID-19" or the "Pandemic"). In an effort to contain and slow the spread of COVID-19, governments implemented various measures, such as, ordering non-essential businesses to close, issuing travel advisories, cancelling large scale public events, ordering residents to shelter in place, and requiring the public to practice social distancing. In most states, real estate has been considered an essential businesse. The spread of the Delta and Omicron variants of COVID-19 or other more transmissible variants may extend the impact of COVID-19 on our business.

We are continually monitoring the affects COVID-19 could have on our business. We believe that in the states and regions in which we operate the social and economic impacts, which include, but are not limited to, the following, could have a significant bearing on our future financial condition, liquidity, and results of operations: (i) restrictions on in-person activities associated with residential real estate transactions arising from shelter-in-place, or similar isolation orders; (ii) decline in consumer demand for in-person interactions and physical home tours; and (iii) deteriorating economic conditions, such as increased unemployment rates, recessionary conditions, lower yields on individual investment portfolios, and more stringent mortgage financing conditions. In response to COVID-19, the Company implemented cost-saving measures early on to include the elimination of non-essential travel and in-person training activities, and deferral of certain planned expenditures.

For the year ended December 31, 2021, and the quarter ended March 31, 2022, due in part to the widespread availability of multiple COVID-19 vaccines, the effects of the COVID-19 on business worldwide lessened. However, the continuing impact from COVID-19, including inflationary pressure in the U.S. and world economies due to supply chain and other issues, including recent increases in interest rates, is not fully known and cannot be estimated as the U.S. and global economies continue to react.

The impact of COVID-19 to the Company for the year ended December 31, 2021, and for the three months ended March 31, 2022, has been minimal. Despite the ongoing Pandemic, the Company's transactions and base of agents increased during 2021 and the first quarter of March 31, 2022. However, while the Company believes it is well positioned in times of economic uncertainty, it is not able to estimate the effects of COVID 19 on its results of operations, financial condition, or liquidity for the year ending December 31, 2022 and beyond. If the Pandemic continues, it might have a material adverse effect on the Company's financial condition, liquidity, and future results of operations, as would the economic policies enacted in the U.S. and other countries in response to the Pandemic, world conditions resulting from the Pandemic.

Real Estate Agents

Due to our low-overhead business model, which leverages our proprietary technology, we can offer our agents the ability to keep significantly more of their commissions compared to traditional real estate brokerage firms. We believe we offer our agents some of the best technology, training, and support available in the industry. We believe our business model and our focus on treating our agents well will attract more agents and higher-producing agents.

We had the following number of agents as of:

	March	31,	
	2022	2021	Change
Agents	9,006	6,045	49 %

Reportable Segments

Our reportable segments are Real Estate Brokerage, Mortgage and Technology. In reporting periods prior to the Company's acquisitions of LiveBy and E:49, which were competed in the second quarter of 2021, the Company aggregated its identified operating segments into one reportable segment. Certain prior period amounts for the three months ended March 31, 2021 have been revised to conform to the current presentation. These changes have no impact on our previously reported consolidated balance sheets or statements of operations

Components of Our Results of Operations

Revenue

Our revenue primarily consists of commissions generated from real estate brokerage services. We also have other service revenue, including mortgage lending, title insurance, home and other insurance, and SaaS revenues.

Gross commission income

We recognize commission-based revenue on the closing of a transaction, less the amount of any closing-cost reductions. Revenue is affected by the number of real estate transactions we close, the mix of transactions, home sale prices, and commission rates.

Other Services Revenue

Mortgage Lending

We recognize revenue streams for our mortgage lending services business which are primarily comprised of loans sold, origination and other fees.

The gain on sale of mortgage loans represents the difference between the net sales proceeds and the carrying value of the mortgage loans sold and includes the servicing rights release premiums.

Servicing rights release premiums represent revenues earned when the risks and rewards of ownership of servicing rights are transferred to third parties.

Retail origination fees are principally revenues earned from loan originations and recorded in the statement of operations in other service revenue. Direct loan origination costs and expenses associated with the loans are charged to expenses when the loans are sold. Interest income is interest earned on originated loans prior to the sale of the asset.

Insurance Agency Service Revenues

The revenue streams for the Company's home and other insurance agency services business are primarily comprised of new and renewal commissions paid by insurance carriers. The transaction price is set as the estimated commissions to be received over the term of the policy based upon an estimate of premiums placed, policy changes and cancellations, net of restraint. The commissions are earned at the point in time upon effective date of the associated policies when control of the policy transfers to the client.

The Company is also eligible for certain contingent commissions from insurers based on the attainment of specific metrics (i.e., volume growth, loss ratios) related to underlying polices placed. Revenue for contingent commissions is estimated based on historical and current evidence of achievement towards each insurer's annual respective metrics and is recorded as the underlying policies that contribute to the achievement are placed. Due to the uncertainty of the amount of contingent consideration that will be received, the estimated revenue is constrained to an amount that is probable to not have a significant negative adjustment. Contingent consideration is generally received in the first quarter of the subsequent year.

Title Service Revenues

Title services revenue includes fees charged for title search and examination, property settlement and title insurance services provided in association with property acquisitions and refinance transactions.

SaaS Revenues

The Company generates revenue from subscriptions and services related to the use of the LiveBy platform. The SaaS contracts are generally annual contracts paid monthly in advance of service and cancellable upon 30 days' notice after the first year. The Company's subscription arrangements do not provide customers with the right to take possession of the software supporting the platform. Subscription revenue, which includes support, is recognized on a straight-line basis over the non-cancellable contractual term of the arrangement, generally beginning on the date that the Company's service is made available to the customer and is recorded as other service revenue in the statement of operations.

Operating Expenses

Commission and other agent-related costs

Commission and other agent-related costs consists primarily of agent commissions, less fees paid to us by our agents, order fulfillment, stock-based compensation for agents, title searches, and direct cost to fulfill the services provided. We expect commission and other agent-related costs to continue to rise in proportion to the expected growth in our operations.

Operations and support

Operations and support consist primarily of direct cost to fulfill the services from our mortgage lending, title services, insurance services and other services provided. We expect operations and support to continue to rise in proportion to the expected growth in our operations.

Technology and development

Technology and development expenses primarily include personnel costs, including base pay, bonuses, benefits, and stock based compensation, related to ongoing development and maintenance of our proprietary software for use by our agents, customers, and support staff. Technology and development expenses also include amortization of capitalized software and development costs, data licenses, other software, and equipment costs, as well as infrastructure and operational expenses, such as, for data centers, communication, and hosted services.

General and administrative

General and administrative expenses consist primarily of personnel costs, including base pay, bonuses, benefits, and stock-based compensation, and fees for professional services. Professional services principally consist of external legal, audit, and tax services. In the short term, we expect general and administrative expenses to increase in absolute dollars due to the anticipated growth of our business and to meet the increased compliance requirements associated with our operation as a public company. However, in the long term, we anticipate general and administrative expenses as a percentage of revenue to decrease over time, if and as we are able to increase revenue.

Marketing

Marketing expenses consist primarily of expenses for online and traditional advertising, as well as costs for marketing and promotional materials. Advertising costs are expensed as they are incurred. We expect marketing expenses to increase in absolute dollars as we continue to expand our advertising programs, including promotion of our newly acquired business lines and we anticipate marketing expenses as a percentage of revenue to decrease over time, if and as we are able to increase revenue.

Depreciation and amortization

Depreciation and amortization represent the depreciation charged on our fixed assets and intangible assets other than capitalized software. Depreciation expense is recorded on a straight-line method, based on an estimated useful life of five years for computer hardware and software, seven years for furniture and equipment and seven years for vehicles. Leasehold improvements are depreciated over the lesser of the life of the lease term or the useful life of the improvements. Amortization expense consists of amortization recorded on acquisition-related intangible assets, excluding purchased software. Customer relationships are amortized on a straight-line basis over the term of the expected benefit and the respective amortization expense is included in technology and development expense. In accordance with U.S. GAAP, we do not amortize goodwill.

Income Taxes

We have not recorded any U.S. federal or state tax benefits for the net losses incurred during the period ended March 31, 2022 due to our uncertainty of realizing a benefit from those items. As of December 31, 2021, we had federal net operating loss carryforwards of approximately \$24.3 million and state net operating loss carryforwards of approximately \$12.8 million. Losses will begin to expire, if not utilized, in 2032. Utilization of the net operating loss carryforwards may be subject to an annual limitation according to Section 382 of the Internal Revenue Code of 1986 as amended, and similar state law provisions.

Results of Operations

Comparison of the Three Months Ended March 31, 2022 and 2021 (dollar amounts in thousands)

Revenue

		Three Mon	nths l	Ended				
	March 31,				Change			
		2022		2021		Dollars	Percentage	
Gross commission income	\$	84,044	\$	49,156	\$	34,888	71 %	
Other service revenue		6,038		490		5,548	1,132 %	
Total revenue	\$	90,082	\$	49,646	\$	40,436	81 %	

For the three months ended March 31, 2022, gross commission income increased by approximately \$34.9 million or 71%, as compared with the three months ended March 31, 2021. This increase was primarily attributable to an increase in transaction volume and to an increase in average revenue per transaction due to rising home prices. During the three months ended March 31, 2022, transaction volume increased by 47%. During the three months ended March 31, 2022, there were 10,087 real estate transactions compared to 6,874 transactions for the three months ended March 31, 2021. Our transaction volume increased primarily due to the organic growth in the number of agents contracted with us and agents acquired through the acquisitions of Red Barn, Epic and iPro. During the three months ended March 31, 2022, average revenue per transaction increased by 24% to \$8,931 from \$6,874 during the three months ended March 31, 2021.

For the three months ended March 31, 2022, other service revenue was approximately \$6.0 million and was attributable to the Company's acquisitions of Verus, E4:9 and LiveBy.

Table of Contents

Operating Expenses

	Three Months Ended March 31,				Change		
	 2022 2021				Dollars	Percentage	
Commission and other agent-related costs	\$ 79,479	\$	46,400	\$	33,079	71 %	
Operations and support	2,175		68		2,107	3,099 %	
Technology and development	1,474		385		1,089	283 %	
General and administrative	10,854		5,819		5,035	87 %	
Marketing	1,163		402		761	189 %	
Depreciation and amortization	572		21		551	2,624 %	
Total operating expenses	\$ 95,717	\$	53,095	\$	42,622	80 %	

For the three months ended March 31, 2022, commission and other agent-related costs increased by approximately \$33.1 million, or 71%, as compared with the three months ended March 31, 2021. Commission and other agent-related costs primarily includes costs related to agent commissions, net of fees paid to us by our agents. These costs generally correlate with recognized revenues. As such, the increase in commission and other agent-related costs compared to the same period in 2021 was primarily attributable to an increase in agent commissions paid due to higher transaction volume and rising home prices.

For the three months ended March 31, 2022, operations and support expenses were approximately \$2.2 million and were attributable to the Company's acquisitions of Verus and E4:9.

For the three months ended March 31, 2022, technology and development expenses increased by approximately \$1.1 million, or 283%, as compared with the year ended March 31, 2021. The increase was primarily attributable to our ongoing investment in the intelliAgent platform and our newly acquired LiveBy business.

For three months ended March 31, 2022, general and administrative expenses increased by approximately \$5.0 million, or 87%, as compared with the three months ended March 31, 2021. The increase in G&A was primarily attributable to recently completed acquisitions and to increases in non-cash stock compensation expense. It is anticipated that G&A expense will increase on an absolute dollar basis going forward, driven by acquisitions and costs related to scaling and integrating the Company's business lines. G&A as a percentage of revenue is expected to decline over the long-term as revenue increases.

For the three months ended March 31, 2022, marketing expenses increased by approximately \$0.8 million, or 189%, as compared with the three months ended March 31, 2021. The increase was attributable to an increase in direct advertising costs primarily related to the Company's expansion in new regions and markets and to promoting its newly acquired businesses.

For the three months ended March 31, 2022, depreciation and amortization expenses increased by approximately \$0.6 million, or 2,624%, as compared with the three months ended March 31, 2021. The increase in depreciation and amortization expense is due to the amortization of the intangible assets (other than capitalized and purchased software for which amortization is included in technology and development expense) acquired in connection with the acquisition of Red Barn, E4:9, and Epic as well as an increase in depreciation expense due to an increase in our depreciable asset base.

Income Taxes

The Company recorded income tax expense of \$25,000 and of \$5,000 for the three months ended March 31, 2022 and 2021, respectively. The tax expense for the three months ended March 31, 2022 is primarily the result of current state income tax liabilities.

Liquidity and Capital Resources (dollar amounts in thousands)

Capital Resources

	Μ	March 31,		December 31,		Change		
		2022		2021		Dollars	Percentage	
Current assets	\$	46,216	\$	54,450	\$	(8,234)	(15)%	
Current liabilities		20,188		21,072		(884)	(4)%	
Net working capital	\$	26,028	\$	33,378	\$	(7,350)	(22)%	

To date, our principal sources of liquidity have been the net proceeds we received through public offerings and private sales of our common stock, as well as proceeds from loans. As of March 31, 2022, our cash totaled approximately \$30.5 million, which represented a decrease of \$7.3 million compared to December 31, 2021. As of March 31, 2022, we had net working capital of approximately \$26.0 million, which represented a decrease of \$7.4 million compared to December 31, 2021. We anticipate that our existing balances of cash and cash equivalents and future expected cash flows generated from our operations will be sufficient to satisfy our operating requirements for at least the next twelve months from the date of the issuance of the unaudited interim consolidated financial statements.

Our future capital requirements depend on many factors, including any future acquisitions, our level of investment in technology, and our rate of growth into new markets. Our capital requirements might also be affected by factors which we cannot control such as the residential real estate market, interest rates, and other monetary and fiscal policy changes, any of which could adversely affect the manner in which we currently operate. Additionally, as the impact of COVID-19 and other world events, such as the recent crisis in Ukraine, on the economy and our operations evolves, we will continuously assess our liquidity needs. In the event of a sustained market deterioration, we may need or seek advantageously to obtain additional funding through equity or debt financing, which might not be available on favorable terms or at all and could hinder our business and dilute our existing shareholders.

Cash Flows

Comparison of the Three Months Ended March 31, 2022 and 2021 (dollar amounts in thousands)

	Three Months Ended March 31,				Cha	nge
	_	2022		2021	Dollars	Percentage
Net cash provided by (used in) operating activities	\$	1,641	\$	(981)	\$ 2,622	(267)%
Net cash used in investing activities	\$	(2,652)	\$	(2,666)	\$ 14	(1)%
Net cash used in financing activities	\$	(6,308)	\$	(4)	\$ (6,304)	NM

Cash Flows from Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2022 consisted of a net loss of \$6.0 million, non-cash charges of \$2.3 million, including \$2.4 million of stock-based compensation expense and \$1.1 million of depreciation and amortization, offset by \$1.2 million in gains on the sales of mortgages. Changes in assets and liabilities were primarily driven by a \$61.5 million change in mortgage loans held for sale; partially offset by a \$67.7 million increase in proceeds from the sales and principal payments on mortgage loans held for sale.

Net cash used in operating activities for the three months ended March 31, 2021 consisted of a net loss of \$3.4 million, non-cash charges of \$1.0 million, including \$0.9 million of stock-based compensation expense, \$0.1 million of bad debt, \$0.1 million of gain on extinguishment of debt, and \$0.1 million of depreciation and amortization and lease expense. Changes in assets and liabilities were primarily driven by a \$0.6 million decrease in prepaid and other current assets, a \$0.6 million increase in accounts payable due primarily to the increase in agent transaction volume, a \$0.6 million increase in accrued liabilities, partially offset by a \$0.2 million increase in agent annual fees receivable due primarily to an increase in the number of agents, and a \$0.1 million decrease in escrow liabilities.

Cash Flows from Investing Activities

Net cash used in investing activities for the three months ended March 31, 2022 consisted of \$1.5 million for business acquisitions, net of cash acquired, \$0.3 million for purchases of property and equipment and \$0.8 million for purchases of intangible assets.

Net cash used in investing activities for the three months ended March 31, 2021 consisted of \$2.1 million for the purchase of a business and assets, net of cash acquired, \$0.4 million for purchases of computers and equipment, and \$0.1 million for the purchase of capitalized software.

Cash Flows from Financing Activities

Net cash used in financing activities for the three months ended March 31, 2022 consisted primarily of the change of \$4.9 million on our warehouse lines of credit, net of the effect of the Cornerstone acquisition, \$1.0 million in repurchase of common stock and \$0.5 million in principal payments on notes payable.

Net cash used in financing activities for the year ended March 31, 2021 consisted of principal payments on an outstanding loan.

NON-GAAP FINANCIAL MEASURE

To supplement our unaudited interim consolidated financial statements, which are prepared and presented in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), we use Adjusted EBITDA, a non-GAAP financial measure, to understand and evaluate our core operating performance. This non-GAAP financial measure, which may be different than similarly titled measures used by other companies, is presented to enhance investors' overall understanding of our financial performance and should not be considered a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

We define the non-GAAP financial measure of Adjusted EBITDA as net income (loss), excluding other (income) expense, income tax expense (benefit), depreciation and amortization, transaction costs and stock-based compensation expense.

We believe that Adjusted EBITDA provides useful information about our financial performance, enhances the overall understanding of our past performance and future prospects, and allows for greater transparency with respect to a key metric used by our management for financial and operational decision-making. We believe that Adjusted EBITDA helps identify underlying trends in our business that otherwise could be masked by the effect of the expenses that we exclude in Adjusted EBITDA. In particular, we believe the exclusion of stock-based compensation expense related to restricted stock awards and stock options and transaction-related costs associated with our acquisition activity provides a useful supplemental measure in evaluating the performance of our operations and provides better transparency into our results of operations. Adjusted EBITDA also excludes other income and expense, net which primarily includes nonrecurring items, such as, gain on debt extinguishment and severance costs, if applicable.

We are presenting the non-GAAP measure of Adjusted EBITDA to assist investors in seeing our financial performance through the eyes of management, and because we believe this measure provides an additional tool for investors to use in comparing our core financial performance over multiple periods with other companies in our industry.

Adjusted EBITDA should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. There are a number of limitations related to the use of Adjusted EBITDA compared to net income (loss), the closest comparable GAAP measure. Some of these limitations are that:

- Adjusted EBITDA excludes stock-based compensation expense related to restricted stock awards and stock options, which have been, and will
 continue to be for the foreseeable future, significant recurring expenses in our business and an important part of our compensation strategy;
- Adjusted EBITDA excludes transaction-related costs primarily consisting of professional fees and any other costs incurred directly related to
 acquisition activity, which is an ongoing part of our growth strategy and therefore likely to be reoccurring; and
- Adjusted EBITDA excludes certain recurring, non-cash charges such as depreciation and amortization of property and equipment and capitalized software costs, however, the assets being depreciated and amortized may have to be replaced in the future.

The following tables present a reconciliation of Adjusted EBITDA to net loss, the most comparable GAAP financial measure, for each of the periods presented (amounts in thousands):

	Three months ended March 31,			
	 2022		2021	
Net loss	\$ (5,997)	\$	(3,400)	
Other expense (income), net	337		(54)	
Income tax expense	25		5	
Depreciation and amortization	1,061		102	
Transaction-related cost	51		434	
Stock- based compensation	2,407		870	
Adjusted EBITDA	\$ (2,116)	\$	(2,043)	

Critical Accounting Policies and Estimates

Discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities and related disclosure of contingent assets and liabilities, revenue, and expenses at the date of the financial statements. Generally, we base our estimates on historical experience and on various other assumptions in accordance with GAAP that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting estimates are those that we consider the most important to the portrayal of our financial condition and results of operations because they require our most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Business Combinations

The Company accounts for its business combinations under the provisions of Accounting Standards Codification ("ASC") Topic 805-10, Business Combinations ("ASC 805-10"), which requires that the purchase method of accounting be used for all business combinations. Assets acquired and liabilities assumed are recorded at the date of acquisition at their respective fair values. For transactions that are business combinations, the Company evaluates the existence of goodwill. Goodwill represents the excess purchase price over the fair value of the tangible net assets and intangible assets acquired in a business combination. ASC 805-10 also specifies criteria that intangible assets acquired in a business combination must meet to be recognized and reported apart from goodwill. Acquisition-related expenses are recognized separately from the business combinations and are expensed as incurred.

The estimated fair value of net assets acquired, including the allocation of the fair value to identifiable assets and liabilities, was determined using established valuation techniques. A fair value measurement is determined as the price we would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. In the context of purchase accounting, the determination of fair value often involves significant judgments and estimates by management, including the selection of valuation methodologies, estimates of future revenues, costs and cash flows, discount rates, and selection of comparable companies. The estimated fair values reflected in the purchase accounting rely on management's judgment and the expertise of a third-party valuation firm engaged to assist in concluding on the fair value measurements. For each business combination completed during the three months ended March 31, 2022, the estimated fair value of identifiable intangible assets, primarily consisting of agent relationships and tradenames, was determined using the relief-from-royalty and multi-period excess earnings methods. The most significant assumptions under these methods include the estimated remaining useful life, expected future revenue, annual agent revenue attrition, costs to develop new agents, knowledge of the business and projected financial information of the Company. These assumptions may vary based on future events, perceptions of different market participants and other factors outside the control of management, and such variations may be significant to estimated values.

The determination and allocation of fair values to the identifiable assets acquired and liabilities assumed are based on various assumptions and valuation methodologies requiring considerable management judgment. The most significant variables in these valuations are discount rates and the number of years on which to base the cash flow projections, as well as other assumptions and estimates used to determine the cash inflows and outflows. Management determines discount rates based on the risk inherent in the acquired assets, specific risks, industry beta and capital structure of guideline companies. The valuation of an acquired business is based on available information at the acquisition date and assumptions that are believed to be reasonable. However, a change in facts and circumstances as of the acquisition date can result in subsequent adjustments during the measurement period, but no later than one year from the acquisition date.

Recent Accounting Standards

For information on recent accounting standards, see Note 3 to our consolidated financial statements included elsewhere in this report.

JOBS Act Transition Period

In April 2012, the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") was enacted. Section 107 of the JOBS Act provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933 (the "Securities Act") for complying with new or revised accounting standards. Thus, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have irrevocably elected not to avail ourselves of this extended transition period and, as a result, we will adopt new or revised accounting standards on the relevant dates on which adoption of such standards is required for other public companies.

Subject to certain conditions, as an emerging growth company, we may rely on certain other exemptions and reduced reporting requirements under the JOBS Act. Certain of these exemptions are, including without limitation, from the requirements of (i) providing an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act; and (ii) complying with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements, known as the auditor discussion and analysis. We will remain an emerging growth company until the earlier to occur of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of our IPO in 2020, (b) in which we have total annual gross revenues of at least \$1.07 billion, or (c) in which we are deemed to be a "large accelerated filer" under the rules of the U.S. Securities and Exchange Commission, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company, we are not required to provide the information required by this Item.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer, and our President and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. In designing and evaluating our disclosure controls and procedures, management recognizes that any disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2022, our disclosure controls and procedures were effective at the reasonable assurance level in ensuring that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Control Over Financial Reporting

Under the supervision and with the participation of our management, including our Chief Executive Officer, and our President and Chief Financial Officer, we conducted an evaluation of any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our most recently completed fiscal quarter.

We are in the process of implementing new accounting systems. We have updated and continue to update our processes related to internal control over financial reporting, as necessary, to accommodate applicable changes in our business processes resulting from the implementation of the new accounting systems.

There were no changes, other than described above, in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Quarterly Report on Form 10-Q that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We are not involved in any litigation that we believe could have a material adverse effect on our financial position or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of our executive officers, threatened against or affecting our Company or our officers or directors in their capacities as such.

Item 1A. Risk Factors.

There have been no material changes to the risk factors that we have previously disclosed in our most recent Annual Report on Form 10-K, as filed with the SEC on March 9, 2022. The risks described in our Annual Report are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, or future results of operations and the trading price of our common stock.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Recent Sales of Unregistered Sales

None.

Purchases of Equity Securities by the Issuer

On March 10, 2022, the Company's board of directors authorized an expenditure of up to \$10.0 million for the repurchase of shares of the Company's common stock in open market transactions effected through a broker-dealer at prevailing market prices, in block trades, or in privately negotiated transactions. The Company may also repurchase shares of its common stock pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Exchange Act which would permit shares of the Company's common stock to be repurchased when the Company might otherwise be precluded from doing so by law. The share repurchase authorization does not have a fixed expiration. The stock repurchase program does not obligate the Company to repurchase any particular amount of common stock, and it could be modified, suspended or discontinued at any time. The timing and amount of repurchases will be determined by the Company's management based on a variety of factors such as the market price of the Company's common stock, the Company's liquidity requirements, and overall market conditions. The stock repurchase program will be subject to applicable legal requirements, including federal and state securities laws.

The following table summarizes the equity repurchase program activity for the three months ended March 31, 2022 and the approximate dollar value of shares that may yet be purchased pursuant to the repurchase program:

			Total number of	Approximate dollar
			shares purchased as	value of shares that
			part of publicly	may yet be
	Total number of	Average price paid	announced plans or	purchased under the
Period	shares purchased	per share	programs	plans or programs
January 1 – January 31, 2022				—
February 1 – February 28, 2022	_			
March 1 – March 31, 2022	83,811	\$ 11.77	83,811	\$ 9,013,610

In April of 2022, the Company purchased an additional 226,233 shares of its common stock under the approved equity repurchase program at an aggregate purchase price of approximately \$1.93 million.

Item 6. Exhibits.

Exhibit Number	Description
31.1+	Certification of Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2+	Certification of Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

CERTIFICATION OF THE PRINCIPAL EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Joshua Harley, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Fathom Holdings Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

- a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to
 ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those
 entities, particularly during the period in which this report is being prepared;
- b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
